

Transcription Factor Activity ELISA

Measure DNA-Binding Activity Quickly & Simply!

SIMPLE

Measure Transcription Factor DNA-Binding Activity with our qualitative in-direct ELISA technology

FLEXIBLE

Use cell or nuclear lysates to measure the activity of wild-type or phosphorylated transcription factors

RAPID SCREENING

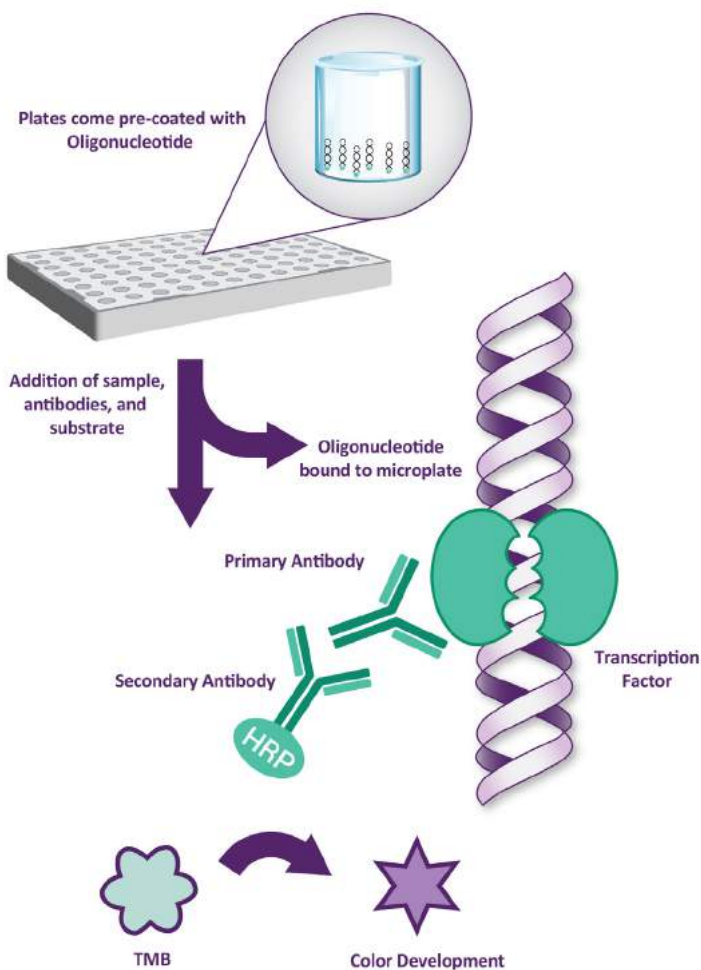

Screen transcriptional inhibitors/activators rapidly in a 96-well format

SPECIFIC

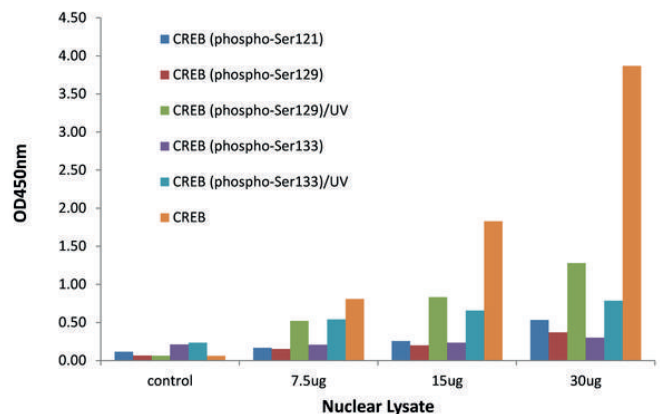

Kits use highly validated antibodies available separately for further studies

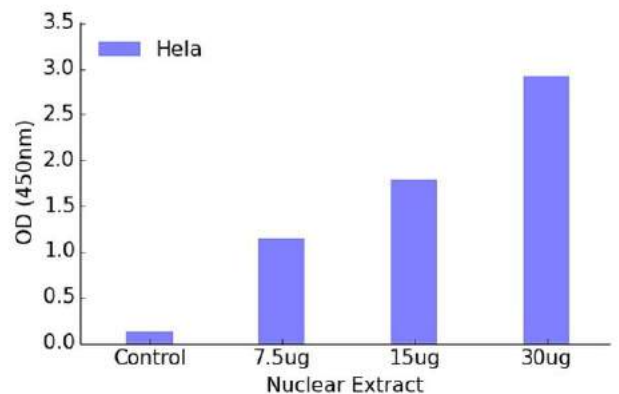

Simple Protocol

Great Data

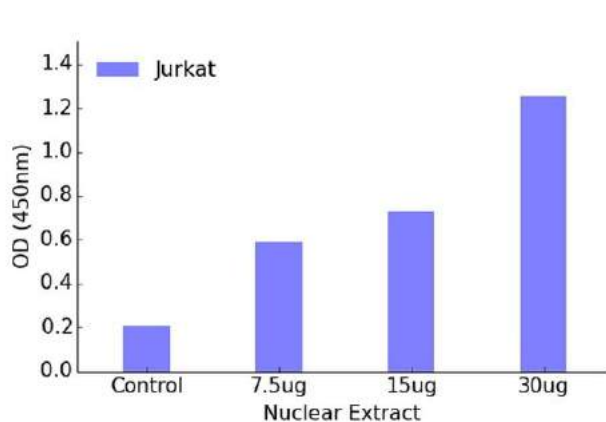

Phospho-CREB Transcription Factor Activity Assay

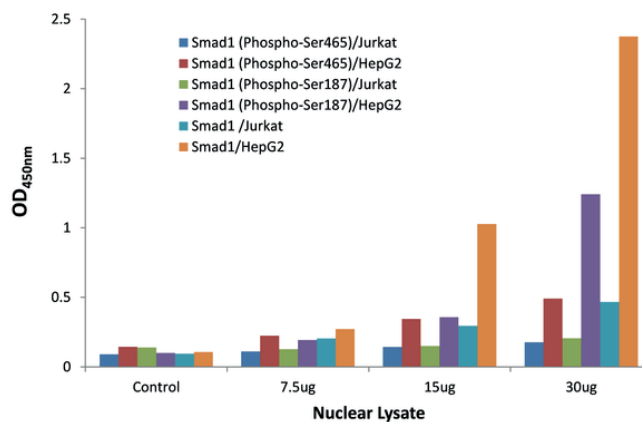

c-Jun Transcription Factor Activity Assay

Phosphorylated Transcription Factor Activity ELISA

Myc (Phospho-Ser62) Transcription Factor Activity Assay

Phospho-SMAD1 Transcription Factor Activity Assay

PHOSPHORYLATED TRANSCRIPTION FACTOR ACTIVITY ELISA

CODE	PRODUCT	CODE	PRODUCT	CODE	PRODUCT
